

STATEMENT OF PURPOSE

RS20816

Currently a local jurisdiction must have the county surveyor set interior monuments of a plat if the original surveyor is unavailable to set them. Some counties do not have a county surveyor. The Board seeks amendments which would allow a surveyor employed by the same business entity as the original surveyor to set the monuments if the original surveyor is not available or refuses or fails to set them. The substitute surveyor would also be required to file a Record of Survey. We have accomplished this by suggested changes to Idaho Code Section 50-1332.

FISCAL NOTE

There is no impact to the State of Idaho general funds or to the dedicated funds of the Board of Professional Engineers and Professional Land Surveyors
